jelena.radakovic@fon.bg.ac.rs

Opis: Poster predstavlja rezultate učešća studentske ekološke organizacije EkoFON Univerziteta u Beogradu – Fakulteta organizacionih nauka, u Noći istraživača 2015, Srbija. Našim multimedijalnim projektom “Vanvremenska priča o ljubavi na 52hz” smo pokušali da osmisimo i kreiramo čitavu priču posvećenu usamljenom kitu Sabishii, i kroz spoj nauke i umetnosti, našim performansom skrenemo pažnju kako na izumiranje vrsta, tako i na vanvremensku temu – neuzvraćenu ljubav.

Ključne reči: Noć istraživača 2015, ugrožene životinjske vrste, ljubav.

Description: This poster presents the results of participation of the students' environmental organization EkoFON of the University of Belgrade – Faculty of Organizational Science, in the Researchers' Night 2015, Serbia. With our multimedia project “A Timeless Love Song at 52Hz”, we tried to create a whole story dedicated to the lonely whale called Sabishii and through a connection of science and art, through performance art, raise awareness of problems such as the extinction of species, as well as give attention to a timeless subject – unrequited love.

Key words: Researchers' Night 2015, extinction of species, love.
